THIS DIRECTORY IS THE PRODUCT OF
THE BURCH DIRECTORY CO.
A Member Of The
ASSOCIATION OF NORTH AMERICAN DIRECTORY PUBLISHERS

Thus assuring patrons the ultimate service that skill and care can produce in the way of City Directories, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association in 1898, and strictly adhered to since that date, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledge himself:

1. To consider, first, the interest of the user of the Directory.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found and the Directory be made to serve its fullest use as a business and social reference and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

AKRON 1928

Akron in 1928 is setting a new and improved stride in its civic, commercial and industrial growth With bonds authorized and plans going actively forward for the acquiring of a municipal airport, Akron is now in line to participate in the coming developments along aviation lines The inauguration of air mail service for Akron in July is expected to be followed by the establishment of the Zeppelin industry here later in the year

The year 1928 has witnessed the opening to public use of the Exchange Street viaduct as part of the first section of the railroad grade elimination system, the construction of the new and beautiful Postoffice building, and further advancement of plans for a new union station Noteworthy changes in the downtown department store section have also occurred which together with theatre and other building projects, forecast Akron's promotion to the metropolitan class city.

The following are salient facts in regard to the city's growth and prosperity

Akron with a population of 227,232 is the 32nd city in the United States in size, but tenth in value of manufactured products and second in Ohio, according to the 1925 United States Census of Manufactures

Akron is the world's largest rubber manufacturing center, consuming annually nearly 40 per cent of the crude rubber production of the entire world and producing about 55 per cent of the rubber tires made in the United States

Akron's 187 manufacturing plants in 1927 gave employment to 62,018 persons and produced goods valued at $603,519,000 These include in addition to the rubber industry, the largest rim plant, fishing tackle factory, and one of the largest cereal mills in the United States, and important clay, zinc oxide, sulphur, salt and rubber equipment factories

Akron's eleven banks had deposits November 1, 1927 totaling $94,603,327, and total debits for 1927 of $1,203,780,000 Its five railroads carried inbound and outbound freight in 1927 totaling 6,576,049 tons

Akron's new building construction in 1927 totaled in valuation $20,392,367 representing 5,820 separate building permits

Note—The foregoing furnished by the Akron Chamber of Commerce

---

For the benefit of those interested in the growth and advancement of Akron and other territory covered by this Directory, we have made a careful count of all individual names with the following result

Akron, 113,616, Kenmore, 7,928, Barberton, 11,530, Cuyahoga Falls 8,889 Using the multiple 2 to cover children under 15 years of age, and married women not included in the above figures, would indicate a *present population* as follows

Akron, 227,232, Kenmore, 15,856, Barberton, 23,060, Cuyahoga Falls, 17,778, making a combined total population of 283,926, which in reality is Greater Akron.

We sincerely hope the good people of Kenmore, Barberton and Cuyahoga Falls will soon realize that it will be to their interest, individually and collectively, to join and become citizens of Akron instead of remaining on the sidelines and denying themselves the pride and pleasure of citizenship in the best known little city in the world

The publishers take this opportunity to thank all who have assisted in the preparation of this work, also the public-spirited business and professional men for their continued financial support

Landscape Maintenance

PRIDE of "HOME" ATTRACTIVENESS can be developed in the Modest Home as well as in the MANSION.

No HOME is too small not to need the advice of a LANDSCAPE ARCHITECT. The smaller the HOME the greater the need of one who can concentrate EXPRESSION. Few people realize that planting TREES and SHRUBS without regard to EXPRESSION is not ARTISTIC.

Super-Service Tires

Modern cars and modern traffic conditions—four-wheel brakes—speed—short stops—all demand a better tire

India SUPER-SERVICE are the best tires ever built—that's our challenge, and it is some statement. They cost more, but the smiles that come with the miles and miles, say they are WORTH it. Every man who tries them says so SUPER-SERVICE tires are for the discriminating—for the owners of cars who can afford the best and who want nothing short of the best.

SUPER-SERVICE tires are the finest money can buy and our tire service is designed to match them in quality

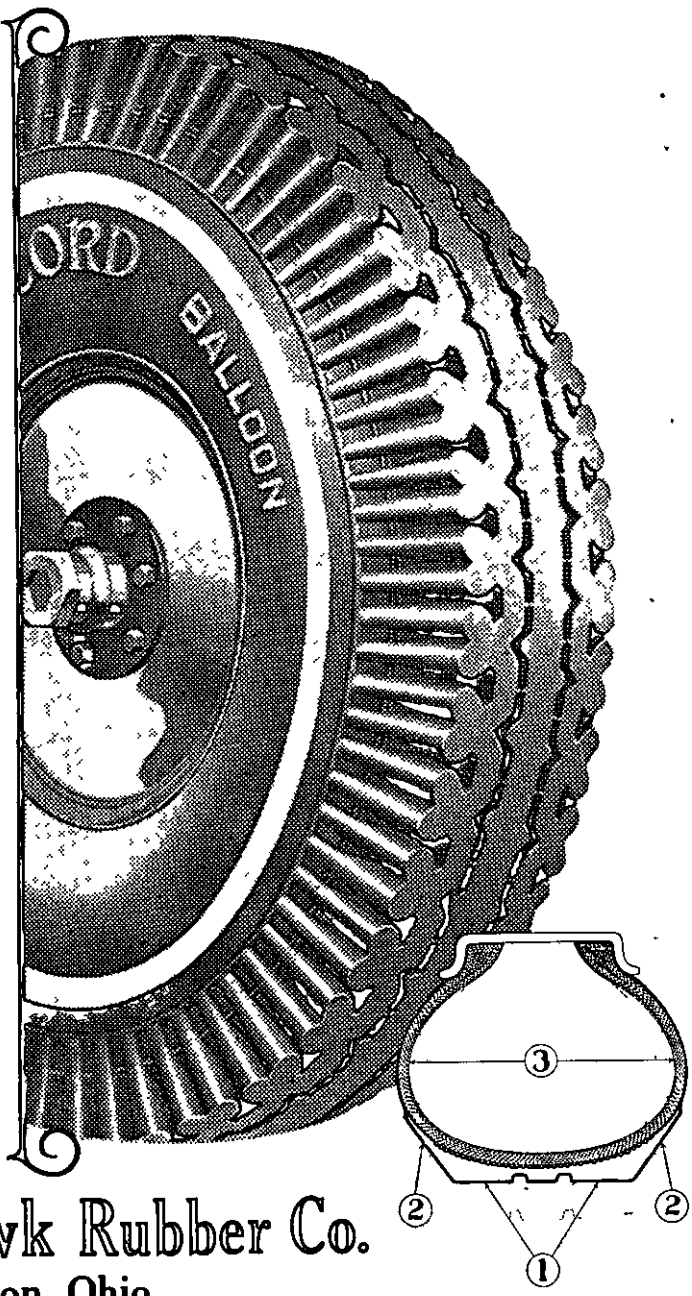
THE NEW MOHAWK FLAT TREAD SPECIAL BALLOON

An epochal advancement in balloon tire construction. Built expressly to withstand the terrific and unusual strains imposed upon tire equipment by the quick starting, flashing pick-up, greater speed and sudden four-wheel braking of the modern automobile.

Now you can enjoy distinctive beauty, superb comfort, improved traction, greater safety and slower, more even tread wear to a degree beyond previous possibility and at a reasonable cost which will be as much of a revelation to you as the beauty and performance of the tire itself.



Note how the long, powerful supports (2) at the edges of the tread distribute the flexing up into the sidewalls (3) eliminating possibility of ply and tread separation which have been so destructive of previous types of flat and semi-flat balloons.
